### FAQ

1. Who is suitable for Diode laser hair removal machine 808nm?

Diode laser is designed to suit everyone, especially those who failed conventional light based hair removal systems such as IPL or Lasers. SHR will help you achieve less or no hair on those areas that trouble you. It is suitable for all skin types, even on dark toned skin and sensitive skin. It also works on light coloured and fine hair.

2. Is it painful?

No, it is not painful. It is a very comfortable procedure that can be used on the most sensitive body parts like Brazilian or Bikini. This is recommended for people with lower pain threshold.

3. How many diode laser 808nm hair removal treatments machines will it take?

This depends on the area being treated and can be influenced by sex, age and hormones. Studies show an average hair loss of approximately 80% after 6-8 treatments. Treatments are conducted 6 to 8 weeks apart.
