

## 4 Handle RF EMS Machine Professional EMS Neo Machine For Body Contouring

Our Product Introduction

for more products please visit us on wfkmdz.com

### Basic Information

- Place of Origin: qingdao
- Minimum Order Quantity: 1
- Price: \$1,900.00/sets 1-9 sets
- Packaging Details: box
- Delivery Time: 1-7days
- Supply Ability: 100sets

### Product Specification

- Warranty: 2 Years
- Type: STANDING
- Feature: Weight Loss
- Application: For Commercial
- Target Area: Body, Legs/Arms, Other
- Handles: 4 Piece Handle
- Product Name: Slim Beauty Machine
- Shape Of Stimulatio: Pulse: Transformed Wave
- Pulsation: 300us
- Output Intensity: 0~13 Tesla
- Product Size: 57\*51\*135cm
- Power: 5000w
- Frequency: 150HZ
- Keywords: EMS Body Sculpting Shape Slimming System Machine

## Function

Function

**\* BUILD MUSCLE**

The muscle contracts 30000 times with high frequency and intensity, so as to train and increase muscle density and volume

**\* REDUCE FAT**

The ultimate contraction of muscle needs a large amount of energy supply, so the fat cells beside the muscle are also consumed, leading to natural apoptosis and effective reduction of fat thickness.

#### \* Muscle Sculpt

Exercising the abdominal muscles, shaping the vest line / exercising the hip muscles, creating the peach hips / exercising the abdominal oblique muscles, and shaping the mermaid line.

Four handles, included special handles for arms

## Theory

### WORK THEORY of EMSlim machine

Non-invasive EMS procedure induces powerful muscle contractions not achievable through voluntary contractions. When exposed to strong contractions, the muscle tissue is forced to adapt to such extreme condition. It responds with a deep remodeling of its inner structure that results in muscle building and sculpting your body.

At the same time, the 100% extreme muscle contraction of EMS technology can trigger a large amount of fat decomposition, excreted by the body's normal metabolism within a few weeks. Therefore, slim beauty machine can strengthen and increase muscle, and reduce fat at the same time.

Ems Pro induces very strong (supramaximal) muscle contractions, not achievable through workout. When exposed to these strong contractions, the muscle tissue is forced to adapt to such extreme condition. The muscle starts remodeling its inner structure by multiplication of fibers and their growth. The HIFEM uses a specific range of frequencies that does not allow muscle relaxation between two consecutive stimulations. The muscle is forced to remain in contracted state for multiple seconds. When repeatedly exposed to these high load conditions the muscle tissue is stressed and is forced to adapt. Recent studies reported that on average 15%- 16% increase in abdominal muscle thickness was observed in treated patients one to two months after HIFEM treatments.

The Ems Pro works on the abdomen area contracting and tightening the muscles to both burn fat and sculpt the area. This treatment can help you improve the muscle definition that you are already seeing from your fitness routine. It is also ideal for addressing that stubborn inch of fat on your stomach that just won't go away.

## WORK HANDLE

Patented cooling technology makes it last.  
Continuous cooling technology makes the treatment head will not produce high temperature, greatly improving its output power which make it very stable.

The market magnetic wave instruments are generally only 2.5-3.0 Tesla, while the magnetic thinness can be adjusted up to 7 Tesla, The perfectly balanced continuous energy output rate is absolutely speechless in the body building equipment on the market.

## Operating placement

- ☒ Body shaping
- ☒ Muscle Building
- ☒ Abdomen sculpting
- ☒ Buttocks lifting
- ☒ Thighs shaping

Easy Operate .

### 5 modes of movement

- \***HIIT**- High intensity interval training mode of aerobic fat reduction.
  - \***Hypertrophy** --Muscle strengthening training mode
  - \***Strength** --Muscle strength training mode
  - \***HIIT+ Hypertrophy Training** mode of strengthening muscle & reducing fat
  - \***Hypertrophy + + Strength Training** mode of strengthening muscle & muscle strength
- ems

# High Efficiency

30 minutes treatments= 20000 workouts

## BUILD MUSCLE

The muscle contracts 30000 times with high frequency and intensity, so it can train and increase muscle density and volume

## REDUCE FAT

The ultimate contraction of muscle needs a large amount of energy supply, so the fat cells beside the muscle are also consumed, leading to natural apoptosis and effective reduction of fat thickness

## Treatment

### Safe Treatment

Suitable for everyone - No anaesthesia - No surgery

Pulsed Electromagnetic Fields have been used in medicine for many years and are proven and effective technologies

### Short Time requirement and Instant results

1 session = 30 min. / treatment area

2 sessions / a week

Total 4 sessions as a course.

And continue to improve for several weeks after treatment.

# Before and After

## Application-Women's "Hip"

No matter what type of butt you have, can slim beauty help you change sexy hip

### \*H\*Type

This special type is formed by a higher and more prominent hip bone, or there is more fat distribution on both sides of the waist, so the overall appearance is square, and it is closer to "straight up and straight down", rather than a smooth curve from waist to hip.

### \*O\*Type

This type is that the fat grows to the buttocks, which will have a mellow visual effect from the back. As long as it's not too much fat, the hip shape can be kept better.

### \*A\*Type

In this type of hip, it is easier for the thigh to accumulate fat. Fat storage around the hips and thighs is mainly caused by female hormones. As you age, decreased hormones may cause fat to tend to be stored around the abdomen.

### \*V\*Type

These hips are more common in middle-aged and older women. The main feature is large at the top and small at the bottom. If you don't pay attention to muscle training, this hip type will begin to change to a loose shape.

## Function

Function

\* BUILD MUSCLE

The muscle contracts 30000 times with high frequency and intensity, so as to train and increase muscle density and volume

## \* REDUCE FAT

The ultimate contraction of muscle needs a large amount of energy supply, so the fat cells beside the muscle are also consumed, leading to natural apoptosis and effective reduction of fat thickness.

## \* BODY SHAPE

Exercising the abdominal muscles, shaping the vest line / exercising the hip muscles, creating the peach hips / exercising the abdominal oblique muscles, and shaping the mermaid line.

Female who seeks improvement in muscle and fat---BUTT LIFT, abs.

Models, Idols, Celebrities  
---- contouring a sexy figure

male who seeks improvement in muscle and fat---muscle building, Chocolate abs.

# Comparison before and after treatment

## Internal structure

### Ours VS Others

Health and Beauty is what we believe in

## Product specification

Health and Beauty is what we believe in

## Our Advantages

Professional 16 years manufacturer.

The 15th year gold supplier on alibaba.

Facotry is also approved by third party"Bureau Veritas and TUV "
