

8.4 Inch True Color LCD Touch Screen 980nm Diode Laser Spider Vein Removal Machine for Vascular Lesions Removal Solution

Our Product Introduction

for more products please visit us on wfkmdz.com

Basic Information

- Place of Origin: China
- Brand Name: Hot Sale Portable 980nm Laser Varicose Veins Treatment Machine High Frequency Radio Painless Beauty Usage-veinwave Machine
- Model Number: 980nm

Product Specification

- Energy: 1-15W
- Function: Blood Vessels Removal
- Weight: 15kg
- Power: 2000W
- Light Source: Excimer Light
- Technology: 308nm Excimer Light System
- Treatment Applications: Vascular Lesions, Spider Veins, Telangiectasia, Rosacea, Etc.
- Pulse: 0.05-1s
- Highlight: 8.4 Inch 980nm Diode Laser Machine

Product Description:

The 980nm wavelength is highly effective for pain therapy, making this machine an ideal choice for physiotherapy clinics and other healthcare facilities. The pulse duration can be adjusted between 0.05-1s, providing a customizable treatment experience for patients. Additionally, the machine supports multi-language options, making it accessible to patients from different backgrounds.

The Physiotherapy 980nm Diode Laser Machine is a safe and reliable option for healthcare professionals looking to provide high-quality pain therapy. Its intuitive controls and customizable settings make it easy to use, while its high-power output ensures effective treatment for a variety of conditions.

Overall, the Physiotherapy 980nm Diode Laser Machine is an essential tool for any healthcare facility that provides pain therapy. Its compact design, customizable settings, and multi-language support make it an excellent choice for healthcare professionals looking to improve patient outcomes and provide effective treatment for a variety of conditions.

APPLICATION

- ▶ Professional hair removal and skin rejuvenation.
- ▶ Comfortable skin cooling
- ▶ Super hair removal
- ▶ Super skin rejuvenation
- ▶ Pigment therapy
- ▶ Wrinkle removal
- ▶ Vascular removal
- ▶ Breast liftup

Features:

Product Name: 980nm-Diode Laser-Machine

Light Source: Excimer Light

Display: 8.4 Inch Color Touch Screen

Weight: 15kg

Cooling: Air

Function: Blood Vessels Removal

Keywords: 980nm diode laser spider vein removal, cold laser therapy device 980nm, beauty salon equipment 980nm

Technical Parameters:

Energy Density	30-4200mj/cm2
Power	2000W
Weight	15kg
Screen	8.4 Inch True Color LCD Touch Screen
Pulse	0.05-1s
Machine Type	980nm Laser Vein Removal
Language	Multi-language
Light Source	Excimer Light
Input Power	60W
Function	Blood Vessels Removal

This 980nm diode laser machine is suitable for physiotherapy 980nm, as well as for the treatment of nail fungus with its excimer light technology.

Applications:

The 980nm diode laser spider vein removal machine is widely used in medical and beauty clinics for its high efficiency and precision. With a pulse duration of 0.05-1s and energy density of 30-4200mj/cm2, it can easily target the affected area without damaging the surrounding

tissues. The energy output can be adjusted from 1-15W, allowing for personalized treatment based on the patient's needs. The 8.4 Inch True Color LCD Touch Screen provides a clear and easy-to-use interface for the operator, making it simple to adjust the settings and monitor the progress of the treatment. The compact and portable design of this 980nm diode laser machine makes it easy to move between treatment rooms or to take on-the-go for mobile clinics. The 980nm diode laser machine is also effective in treating fungal infections and can be used for nail fungus removal. Its high frequency radio technology ensures a safe and painless treatment experience for patients. Overall, the Hot Sale Portable 980nm Laser Varicose Veins Treatment Machine High Frequency Radio Painless Beauty Usage-veinwave Machine is a versatile and effective solution for a wide range of vascular lesions. Its precision, efficiency, and ease of use make it an ideal choice for medical and beauty clinics looking to provide top-quality treatments to their patients.
