Product Description:

The Alexandrite Laser Machine is a state-of-the-art device designed to meet the diverse needs of modern aesthetic and dermatological treatments. Combining advanced technology with user-friendly features, this machine offers exceptional performance and versatility, making it an indispensable tool for clinics and medical professionals. At the heart of this machine is the Alex Laser 755 1064 technology, which ensures precise, efficient, and safe treatments for a wide range of skin types and conditions.

One of the standout features of this Alexandrite Laser Machine is its incorporation of the Alex Laser 755 1064 wavelength. The 755 nm wavelength is highly effective for targeting melanin in hair follicles, making it an excellent choice for laser hair removal. This wavelength penetrates the skin efficiently, delivering energy that selectively destroys hair follicles without damaging surrounding tissue. Additionally, the 1064 nm wavelength is integrated into the system to provide deeper penetration, which is particularly useful for treating darker skin tones and vascular lesions. This dual-wavelength capability allows practitioners to customize treatments according to individual patient needs, enhancing both safety and efficacy.

The machine also features the Long Pulse Gentle Pro Yag Laser technology, which complements the Alex Laser 755 1064 wavelengths perfectly. The Long Pulse Gentle Pro Yag Laser offers a gentle yet powerful approach to laser therapy, utilizing longer pulse durations to minimize discomfort and reduce the risk of side effects. This technology is especially beneficial for patients with sensitive skin or those undergoing treatments that require a more delicate touch, such as pigmentation correction, skin rejuvenation, and vascular lesion removal. The synergy between the Alex Laser 755 1064 and the Long Pulse Gentle Pro Yag Laser ensures comprehensive treatment options within one compact system.

Designed with precision and efficiency in mind, the Alexandrite Laser Machine comes equipped with an intuitive interface and adjustable settings. This allows practitioners to fine-tune parameters such as pulse duration, energy levels, and spot sizes to optimize outcomes for each patient. The machine's ergonomic design and cooling system enhance patient comfort during procedures, reducing downtime and promoting faster recovery. Moreover, the device's high repetition rate allows for quicker treatment sessions, increasing throughput in busy clinical environments without compromising safety or results.

In addition to its technical capabilities, the Alexandrite Laser Machine is built for durability and ease of maintenance. The robust construction and quality components ensure long-term reliability, while the modular design simplifies servicing and upgrades. This makes the machine a cost-effective investment for medical facilities looking to expand their laser treatment services. Training and support are also readily available, helping practitioners maximize the benefits of the Alex Laser 755 1064 and Long Pulse Gentle Pro Yag Laser technologies.

Overall, the Alexandrite Laser Machine stands out as a versatile, powerful, and user-friendly laser system that integrates the best of Alex Laser 755 1064 and Long Pulse Gentle Pro Yag Laser innovations. Whether used for hair removal, pigmentation correction, vascular treatments, or skin rejuvenation, this machine delivers consistent, high-quality results. Its advanced features, combined with safety and comfort enhancements, make it an ideal choice for clinics aiming to provide top-tier aesthetic and dermatological solutions. By investing in this Alexandrite Laser Machine, professionals equip themselves with a cutting-edge tool that elevates patient care and expands treatment possibilities.

Features:

- Advanced Alex Laser 755 1064 technology for effective treatment
- High-precision Alexandrite Hair Removal for smooth and lasting results
- Multi-functional laser Beauty Machine suitable for various skin types
- Fast and painless procedure with minimal downtime
- Adjustable settings for customized treatment intensity
- Ergonomic design for ease of use and operator comfort
- Durable and reliable components ensuring long-term performance
- Safe and FDA-approved for professional use
- Compact and portable design for convenient placement in clinics

Technical Parameters:

Product Name	Alexandrite Hair Removal Laser Beauty Machine
Laser Type	Alexandrite Laser
Wavelength	755 nm
Pulse Width	10-100 ms
Energy Density	1-60 J/cm ²
Spot Size	12x12 mm
Frequency	1-3 Hz
Cooling System	Contact Cooling & Air Cooling
Display	8.4 inch Color Touch Screen
Power Supply	AC 110-240V, 50/60 Hz
Dimensions	45 x 40 x 110 cm
Weight	45 kg

Applications:

The Alexandrite Laser Machine, branded as health&beauty and originating from Shandong, China, is an advanced laser beauty machine designed to cater to a wide range of professional aesthetic applications. Featuring the Model Number Laser Alexandrite 755nm, this device is highly efficient in delivering precise and effective treatments using the Alex Laser 755 1064 technology. Its dual wavelength capability ensures versatility, allowing practitioners to address various skin types and conditions with optimal results.

This laser beauty machine is ideal for use in medical spas, dermatology clinics, beauty salons, and cosmetic surgery centers. The Alex Laser 755 1064 allows for hair removal, pigmentation treatment, tattoo removal, and skin rejuvenation, making it an indispensable tool for enhancing clients' skin health and appearance. Its high efficiency and safety profile make it suitable for both small-scale beauty businesses and large-scale professional clinics.

The Alexandrite Laser Machine is packaged securely in a box, ensuring safe delivery within 1-7 days after ordering. With a minimum order quantity of just one unit and a supply ability of 100 sets, businesses can easily acquire this cutting-edge laser beauty machine to meet their needs. Payment terms are flexible, accepting T/T and Western Union, facilitating smooth transactions for customers worldwide. In addition to standard beauty treatments, the Alex Laser 755 1064 is perfect for special occasions and scenarios such as pre-wedding skincare programs, seasonal skin maintenance, and post-treatment enhancements following cosmetic surgeries. Its precise wavelength targeting allows for minimal downtime, enabling users to maintain their busy lifestyles without interruption.

Overall, the Alexandrite Laser Machine from health&beauty is an essential device for anyone looking to invest in advanced laser technology. Combining convenience, reliability, and professional-grade performance, this laser beauty machine empowers practitioners to deliver exceptional results across multiple application occasions and scenarios.

Support and Services:

Our Alexandrite Laser Machine is supported by a dedicated team of technical experts committed to ensuring optimal performance and customer satisfaction. We provide comprehensive technical support including installation guidance, routine maintenance, software updates, and troubleshooting assistance.

Our services cover initial setup and calibration to guarantee precise and effective laser treatments. We offer training sessions for operators to maximize safety and efficiency while using the machine.

In addition, our maintenance programs include preventive care and timely repairs to minimize downtime and extend the lifespan of your Alexandrite Laser Machine. Replacement parts and accessories are readily available to keep your equipment functioning at its best.

For any technical inquiries or support needs, our specialists are available to provide prompt and professional assistance, ensuring your Alexandrite Laser Machine delivers consistent and reliable results.

Packing and Shipping:

Product Packaging:

The Alexandrite Laser Machine is carefully packaged to ensure maximum protection during transit. It is securely enclosed in a sturdy, custom-designed carton with high-density foam padding to prevent any damage. All accessories and components are neatly organized and included in the package. The packaging is labeled with handling instructions and product information for easy identification.

Shipping:

We offer reliable and fast shipping options for the Alexandrite Laser Machine. The product is shipped via trusted carriers with tracking available. Shipping times vary depending on the destination but typically range from 5 to 15 business days. We ensure that all shipments comply with international shipping regulations and are handled with care to arrive safely at your doorstep.

FAQ:

Q1: What is the place of origin of the Alexandrite Laser Machine?

A1: The Alexandrite Laser Machine is manufactured in Shandong, China.

Q2: What is the brand name and model number of this laser machine?

A2: The brand name is health&beauty and the model number is Laser Alexandrite 755nm.

Q3: What is the minimum order quantity for the Alexandrite Laser Machine?

A3: The minimum order quantity is 1 unit.

Q4: How is the Alexandrite Laser Machine packaged for delivery?

A4: The machine is packaged securely in a box to ensure safe transportation.

Q5: What is the typical delivery time after placing an order?

A5: The delivery time ranges from 1 to 7 days depending on the order and shipping method.

Q6: What payment methods are accepted for purchasing the Alexandrite Laser Machine?

A6: Accepted payment terms include T/T, Western Union, and Western Union.

Q7: What is the supply capacity for this product?

A7: The supply ability is 100 sets.
