

## Versatile Alexandrite Laser Machine Suitable for Hair Removal Skin Rejuvenation and Pigmentation Treatment in Medical Facilities

Our Product Introduction

for more products please visit us on wfkmdz.com

### Basic Information

- Place of Origin: Shandong, China
- Brand Name: health&beauty
- Model Number: Laser Alexandrite 755nm
- Minimum Order Quantity: 1
- Packaging Details: box
- Delivery Time: 1-7days
- Payment Terms: T/T, Western Union, Western Union
- Supply Ability: 100sets

#### Advantages

The ultimate laser hair removal and integrated aesthetic platform for every practice.

- 80%**  
Up to 80% permanent hair reduction after 3 treatments
- ALL**  
Treat all hair from dark and coarse to light and fine
- FIBER**  
American imported laser fiber
- 6**  
Six A type ABS material probes, more sturdy and durable.

### Product Specification

- Highlight: Alexandrite laser hair removal machine, Medical alexandrite laser skin rejuvenation, Alexandrite laser pigmentation treatment device

#### HIGH ENERGY OUTPUT & STABILITY

Uniform spot distribution with consistent fluence ensures optimal treatment results

**110J**  
ENERGY INCREASED BY  
**40%**

### More Images

#### NON TOUCH

Proprietary science engineered for patient safety and healthy

- A type ABS material probes sturdy and durable
- Be suitable for any parts treatment, give operator more choices

#### LAMPS & LASER BARS

Increased service life, Reduced energy attenuation

- +20%**  
Increased service life
- 60%**  
Reduced energy attenuation

American Leko high level 60mm laser rod

**Product Description:**

The Alexandrite Laser Machine is an advanced and highly effective laser beauty machine designed for a wide range of aesthetic and dermatological treatments. Renowned for its precision, efficiency, and safety, this device has become a staple in modern cosmetic clinics and beauty centers worldwide. Leveraging cutting-edge laser technology, the Alexandrite Laser Machine offers unparalleled performance in hair removal, skin rejuvenation, pigmentation treatment, and vascular lesion therapy. Its sophisticated design ensures optimal results while maintaining maximum comfort for patients, making it a preferred choice among professionals and clients alike.

One of the standout features of the Alexandrite Laser Machine is its ability to deliver long pulse durations, which significantly enhances its effectiveness and safety profile. This long pulse capability allows deeper penetration into the skin, targeting hair follicles and pigmented lesions with precision without causing damage to the surrounding tissues. This makes the Alexandrite Laser Machine highly suitable for treating a variety of skin types and conditions, including sensitive or darker skin tones, where controlled and gentle energy delivery is critical.

Incorporating the technology of the Long Pulse Gentle Pro Yag Laser, this machine combines the power of Alexandrite laser wavelengths with the gentle and effective pulse modulation of the Gentle Pro Yag Laser system. This integration results in a versatile laser beauty machine that can address multiple cosmetic concerns in one platform. The Long Pulse Gentle Pro Yag Laser technology ensures that treatments are performed with minimal discomfort, reduced risk of side effects, and shorter downtime, thereby enhancing the overall client experience.

The Alexandrite Laser Machine's user-friendly interface and customizable settings allow practitioners to tailor treatments according to individual patient needs. Whether performing laser hair removal, targeting stubborn pigmentation, reducing vascular lesions, or stimulating collagen production for skin tightening and rejuvenation, the machine's adjustable parameters provide precision control over pulse duration, fluence, and spot size. This flexibility not only improves treatment outcomes but also ensures patient safety by adapting to different skin sensitivities and treatment areas.

Moreover, the Alexandrite Laser Machine is engineered with a high-quality cooling system that works synergistically with the Long Pulse Gentle Pro Yag Laser technology to minimize discomfort and protect the epidermis during treatment. The integrated cooling mechanism enhances patient comfort and allows for higher energy levels to be used safely, thereby improving the efficiency and speed of the procedures. This makes the machine highly effective for large-area treatments and repeated sessions, which are common in hair removal and skin resurfacing protocols.

From a practical standpoint, the Alexandrite Laser Machine boasts a durable and ergonomic design that facilitates easy maneuverability and long-term reliability. Its compact footprint and smooth operation make it suitable for a variety of clinical settings, from small beauty salons to large dermatology clinics. Additionally, the machine comes with comprehensive training and technical support, ensuring that operators can maximize the capabilities of the device while maintaining the highest standards of patient care.

In summary, the Alexandrite Laser Machine equipped with Long Pulse Gentle Pro Yag Laser technology represents a significant advancement in laser beauty machines. It offers an excellent combination of power, precision, and patient comfort, making it ideal for a broad spectrum of cosmetic and medical laser treatments. Whether your goal is effective hair removal, skin rejuvenation, or treating pigmented and vascular lesions, this laser beauty machine delivers consistent, safe, and impressive results. Investing in the Alexandrite Laser Machine means embracing the future of aesthetic technology and providing clients with the best possible care in their beauty and skincare journeys.

**Features:**

- Advanced Alexandrite Hair Removal technology for effective and painless treatment
- Dual wavelength system: Alex Laser 755 nm and 1064 nm for versatile skin types
- High precision laser Beauty Machine suitable for hair removal and skin rejuvenation
- Fast treatment speed with large spot size for efficient sessions
- Adjustable energy levels to customize treatments according to skin sensitivity
- Integrated cooling system to ensure patient comfort during procedures
- User-friendly interface with touch screen control for easy operation
- Compact and portable design for convenient use in clinics and salons
- Safe and FDA-approved technology ensuring reliable results
- Suitable for a wide range of hair colors and skin tones

## Applications:

The Alexandrite Laser Machine, originating from Shandong, China, is a state-of-the-art laser beauty machine designed for efficient and painless Alexandrite Hair Removal. With the model number Laser Alexandrite 755nm, this advanced device is widely recognized for its precision and effectiveness in targeting unwanted hair, making it an ideal choice for beauty salons, dermatology clinics, and aesthetic centers.

One of the primary application occasions for the Alexandrite Laser Machine is professional beauty and hair removal centers. Its powerful 755nm wavelength is specifically calibrated for Alexandrite Hair Removal, allowing for quick treatments on various skin types, especially lighter skin tones. This machine is perfect for clients seeking long-lasting hair reduction on areas such as the legs, arms, underarms, face, and bikini line. The laser beauty machine ensures minimal discomfort and fast recovery, enhancing client satisfaction and repeat business.

In addition to beauty salons, the Alexandrite Laser Machine is also highly suitable for medical spas and cosmetic clinics that offer comprehensive skin care and hair removal solutions. Its precise laser technology helps practitioners deliver safe and effective treatments for hair removal while also being versatile enough to address pigmentation issues and skin rejuvenation, broadening its usability. This makes it a valuable asset in professional settings focused on advanced skin care therapies.

Another important scenario for the Alexandrite Laser Machine is at-home or small business use, given its compact design and user-friendly interface. With a minimum order quantity of just one unit and packaging details including a secure box, the machine can be conveniently shipped within 1-7 days. The supply ability of 100 sets ensures availability for both individual and bulk purchases, supported by flexible payment terms such as T/T and Western Union. This allows beauty professionals and entrepreneurs to quickly integrate the Alexandrite Hair Removal technology into their service offerings.

Overall, the Alexandrite Laser Machine is ideal for any occasion where efficient, safe, and reliable hair removal is desired. Whether in a high-traffic salon, a medical clinic, or a personal beauty setup, this laser beauty machine delivers exceptional results, enhancing confidence and skin health for users. Its origin from Shandong, China, coupled with the reputable brand health&beauty, guarantees quality and performance in every treatment session.

## Support and Services:

Our Alexandrite Laser Machine is supported by a dedicated team of technical experts committed to ensuring optimal performance and customer satisfaction. We provide comprehensive technical support including installation guidance, user training, routine maintenance, and troubleshooting assistance.

To maximize the lifespan and efficiency of your Alexandrite Laser Machine, we recommend following the detailed user manual provided with the product. Regular calibration and cleaning of the laser components are essential to maintain precision and safety during operation. Our technical support services include remote diagnostics and on-site visits by certified technicians to promptly address any operational issues. We also offer software updates and hardware upgrades to keep your equipment up to date with the latest technological advancements.

In addition to technical support, we provide extensive training programs for operators and medical professionals to ensure safe and effective use of the Alexandrite Laser Machine. Training covers machine operation, safety protocols, and best practices for various treatment applications.

For any technical inquiries, maintenance scheduling, or service requests, our support team is available to assist you throughout the lifecycle of your Alexandrite Laser Machine, ensuring uninterrupted service and optimal treatment outcomes.

## Packing and Shipping:

**Product Packaging:** The Alexandrite Laser Machine is securely packaged in a sturdy, custom-designed wooden crate to ensure maximum protection during transit. Inside the crate, the machine is wrapped with anti-static foam and bubble wrap to prevent any damage from shocks or vibrations. All accessories, including handpieces, power cables, and user manuals, are neatly packed in separate compartments within the crate to avoid any movement. The packaging is labeled clearly with handling instructions and fragile warnings to ensure careful handling.

**Shipping:** We offer worldwide shipping for the Alexandrite Laser Machine through reliable courier services. The product is shipped via air freight or express delivery depending on the destination and customer preference. Tracking information will be provided once the shipment is dispatched. Custom clearance support is available to assist with smooth import procedures. Delivery times vary by location but typically range from 7 to 15 business days. Insurance options are available to cover the product during transit for added peace of mind.

## FAQ:

**Q1: Where is the Alexandrite Laser Machine manufactured?**

A1: The Alexandrite Laser Machine is manufactured in Shandong, China.

**Q2: What is the model number of this Alexandrite Laser Machine?**

A2: The model number of the machine is Laser Alexandrite 755nm.

**Q3: What is the minimum order quantity for the Alexandrite Laser Machine?**

A3: The minimum order quantity is 1 unit.

**Q4: How is the Alexandrite Laser Machine packaged for delivery?**

A4: The machine is carefully packaged in a box to ensure safe transportation.

**Q5: What is the typical delivery time after placing an order?**

A5: The delivery time ranges from 1 to 7 days depending on the order and shipping location.

**Q6: What payment methods are accepted for purchasing the Alexandrite Laser Machine?**

A6: We accept T/T (Telegraphic Transfer) and Western Union as payment methods.

**Q7: What is the supply ability for this product?**

A7: We can supply up to 100 sets of Alexandrite Laser Machines.
